Environmental Policy

Ref: EP101 (July 2020)

Capitol Floor & Hygiene Maintenance Ltd understands the importance of implementing and enforcing an environmental policy to help protect our environment including preventing pollution. This policy outlines the framework in which Capitol conducts its systems to be environmentally friendly.

Capitol understands that this is an ongoing task in which we can continually improve our procedures to have a further positive impact on our environment.

In some cases Capitol cannot avoid using chemicals and products which can have a negative impact on the environment, due to the nature of our business, however, when we use such chemicals and products we will ensure they are controlled so we can monitor our environmental impact.

Capitol will commit to continual improvement of:

1. Use environmentally friendly products where practical and able to do so.
2. Reduce usage of natural resources e.g paper products, ink etc by using digital means.
3. Ensure our company vehicles comply with Ultra Low Emission Zones when necessary.
4. Encourage the use of energy saving /eco-friendly positive procedures throughout our company.
5. Ensuring we comply with all applicable, legal, regulatory, contractual and other third party requirements
6. Continue to monitor our environmental impact such as carbon footprint, use of products and chemicals and systems and procedures.
7. Securing certification of ISO14001 against our Environmental Management System

This company policy is backed with full support from our Directors, Management team and Employee's and will continue to be reviewed and improved where possible.
